

Since every corner window is different in design, it will be necessary for you to determine the best method of mounting blinds in your corner windows.

This will give you some ideas to use in making determinations for your installation. In the illustration below, if the blind is wide enough to require a center support bracket, it will likely need to be mounted to the ceiling. The method shown below provides the greatest amount of privacy and the least gap between blinds. **Round your measurements to the nearest 1/8"**.

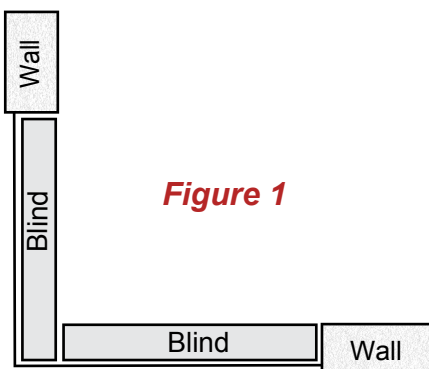

Figure 1

Note how one blind head rail overlaps the other. If the windows are identical in size, then one blind will be narrower than the other.

Use **Chart 1** to determine the head rail depth for the product you are purchasing.

Order the blinds as **Inside Mount**.

Important: There are many types and styles of corner windows. It would be impossible for us to anticipate every conceivable construction arrangement. It is your responsibility to figure out what will work in your specific installation. The measuring guides and information provided by the Blind Barn are to assist you in making the proper determinations. Plan carefully. Measure carefully. Double check all measurements. The Blind Barn and the respective manufacturers will not be responsible for incorrect measurements or improper planning of the installation.

Chart 1 - Head Rail Depth and Minimum Bracket Depth

| Product | Head Rail Depth Including Brackets | Minimum Mounting Depth Required for Brackets |
|---------------------------------------|------------------------------------|--|
| Arbour 2" Woods | 2 1/2" | 1 3/4" |
| Arbour Faux 2" Woods | 2 1/2" | 1 3/4" |
| Graber 2" Woods | 2 1/2" | 1 3/4" |
| Graber Faux 2" Woods | 2 1/2" | 1 3/4" |
| Graber Crystal Pleat 3/8" Cellular | 2 3/8" | 3/4" |
| Heartland 2" Woods | 2 1/2" | 3/4" |
| Heartland Faux 2" Woods | 2 1/2" | 3/4" |
| Hunter Douglas 2" Faux Woods | 2 1/2" | 3/4" |
| Hunter Douglas 2 1/2" Faux Woods | 2 1/2" | 3/4" |
| Hunter Douglas 2" Woods | 2 1/2" | 3/4" |
| Hunter Douglas 2 1/2" Woods | 2 1/2" | 3/4" |
| Hunter Douglas Applause 3/8" Cellular | 1 3/4" | 3/4" |
| Kirsch Classique 7/16" Cellular | 2" | 5/8" |
