

This worksheet is intended as a convenient location to record your measurements. It does not contain detailed instructions on how to measure for blinds. Please refer to the various Measuring Guides on the Blind Barn web site. Remember, the Blind Barn and the respective manufacturers are not responsible for incorrect measurements. Measure carefully, write everything down.

Begin height measurement 2" above the window.
 Extend width measurement beyond the window edge on both sides, usually 1 to 2"

Round each measurement to the nearest 1/8"

Two On One Head Rail

The two individual shade measurements must equal the Total Width measurement taken at the top of the window

Window

_____	_____
Total Width	Height
_____	_____
Left Width	Right Width

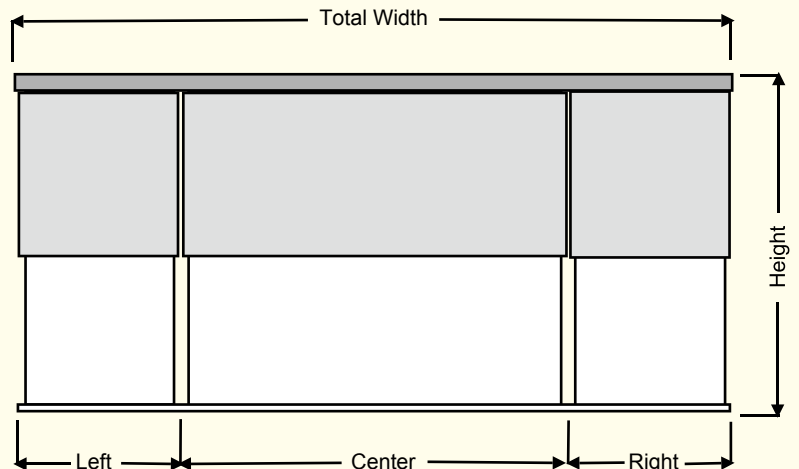

These are the measurements you will use to fill in the Blind Barn order form for this window.

Three On One Head Rail

Window

_____	_____	
Total Width	Height	
_____	_____	_____
Left	Center	Right

These are the measurements you will use to fill in the Blind Barn order form for this window

The three individual shade widths must exactly equal the Total Width measurement taken at the top of the window.
